2. Citations and explanations (Rule 70.7)

Document cited in the International Search Report: D1: DE 3030233

The cited document represents the general state of the art. The invention defined in claims 1- 33 is not disclosed by this document.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed support body made of at least two layers of elastic material, for an apparatus having an extending nip. Therefore, the claimed invention is not obvious to a person skilled in the art. Accordingly, the invention defined in claims 1- 33 is novel and is considered to involve an inventive step. The invention is industrially applicable.
